

Heiser Hootenanny

October 6, 2019

Course Description

The trails out at Heiser Farms are mostly singletrack that weave in and out of the trees. Not really much elevation to speak of throughout the course, so it'll benefit riders that are savvy at cornering. You'll notice the lap count and mileage is to be determined, and that's because we may have to alter the course if there's a lot of rain that floods some of the area out. Lap count and distance will be posted by the registration/merch tent on Saturday before pre-ride.

Many thanks to the Heiser family for offering this venue to us, not only to race at but to camp on! Big hearts, folks. They've got 'em.

Course Preview

Our course will come together the sooner we get to race day. We've got a lot of land and trail to work with, but if we get heavy rains leading up to the races, we'll have to alter things a bit. The course could be anywhere from 3-4.5 miles. Lap count and distances will be posted before pre-ride begins on Saturday, October 5.
